

Endress+Hauser

Endress+Hauser is a global leader in measurement instrumentation, services & solutions for industrial process engineering. E+H provides process solutions for flow, level, pressure, analytics, temperature, recording & digital communications.

Instrumentation

Temperature & Pressure Gauges, Thermometers, Transducer & Thermowells

Products & Solutions for Electrical Engineering & Automation

Flow & Pressure Instrumentation for Industrial & Semiconductor Applications

Batch Controllers

Weighing Systems Solutions

Panel Meters

Emissions Monitoring & Analysis

Gas and Flame Detection Gas Detectors

Level Measurement

Temperature Instruments

Dewpoint Measurement

SAMSON

Samson Group develops & custom manufactures high quality valves & controls for the process industry. Samson meets customer needs with modular linear globe, rotary plug, ball & butterfly control valves.

Valves & Actuators

Worcester Controls Valves & Actuators

Rack & Pinion Actuators

Pureflo - Diaflo Fabri

Valve Communication Solutions

PFA Lined Valves

Ball Valves & Customer Configuration

Butterfly Valves

Ball Valves, Actuators & Valve Accessories

Solenoid Valves

Hygienic Valves

SSP

SSP offers a wide range of fittings for instrumentation applications. SSP products are manufactured in the USA. SSP tube, pipe, weld & adapter fittings are designed to exceed industry & customer standards.

Steam, Filtration & Strainers

Titan Flow Control Strainers & Check Valves

TLV Steam Traps

Parker Filtration and Finite Filtration Solutions for Process Industries, Compressed Air & Gas Filtrations

George E. Booth Co.

Products and Services for Process Measurement and Control

Services

George E. Booth Co. offers a variety of services that span the breadth of your process and control needs. We offer scheduled and on-demand service options.

- Custom Valve Assembly
- On-site Calibration
- Lab/Factory Calibration
- Steam Trap Audits
- Loop Checks and Verification
- SCADA System Integration
- Control Panel Fabrication: UL Certified
- Embedded Service Technicians
- Industrial/Control Valve Maintenance
- Site Start-up/Commissioning: Additional 5-year warranty on Endress+Hauser equipment

✓ **Endress + Hauser Authorized Service Partner**

✓ **A2LA Accredited in accordance with ISO/IEC 17025**

✓ **24/7 Emergency Service Available**

George E. Booth Co. is the preeminent supplier of process instrumentation products, controls, and related services to customers in Illinois, Indiana, Ohio, Kentucky, and Tennessee.

Training

Process Training Unit - Romeoville, IL

Multifaceted and state-of-the-art technical training program delivering instrumentation training to engineering, maintenance, and operations personnel who desire basic, intermediate, and specialized instruction.

- Valves 101 & 102
- Basic Instrumentation
- Flow School
- Level School
- Process Analytical Technologies & Systems
- Field Device Tooling
- Loop Check & Troubleshooting
- Coriolis Mass Flow
- Calibration Course
- And more!
